# SCENE OF DISASTER

Carries Coffins for Any Bodies Which May Be Recovered

Halifax, April 17.—The cable ship ett, which has been chartered by the White Star Line to go to scene of the Titanic disaster, was being loaded to-day preparatory to departure. In the hope that some bodles may be picked up, coffins are being

This version of the wreck is credited to the British steamer Bruce, en route to Sydney, N. S. She is supposed to have picked up a story by wireless from other ships near the Titanic.

The great liner is declared to have struck with such speed and momentum as to half-rear out of the water, tearing her bottom off on the jagged, submerged lee from bow clear to amidships.

The compariments flooded and she began to settle by the head.

The compariments flooded and she began to settle by the head.

The officers and crew succeeded in keeping perfect order for a time, long enough for most of the boats to be is greatly nampered by the mase of launched, but less than a thousand persons had been embarked when the cry went up: "She's sinking."

From order the crowd changed to frenzy and rushed madly for the lifeboats within reach. Some of these were swamped by overcrowding, others were through.

## FOG DELAYS CUNARD LINER CARPATHIA

Captain of Titanic Expected Olympic Would Be First to Reach Scene

New York, April 17.-The White Star Line made public to-day the following unsigned message from the steamship Carpathia, probably relayed to New York:

"Carpathia, east of Ambrose, 596 miles, 11 p.m. Tuesday. All well." By Ambrose, is meant Ambrose channel, the entrance of New York Carpathia will arrive about 9 o'clock o-morrow night.

In faintest touch with the wireles on at Sable Island the Cunard Carpathia with 868 survivors of sunken Titanic on board, was creeping down the coast early this orning, making the best time for this

Speeding up the coast toward the rescue ship and hoping to get within wireless speaking distance of her be-fore very many hours were the scout cruisers Salem and Chester, ordered by the government at Washington to make all haste possible toward break New York. April 17.—The Camper-ing known to the Carpathia from maked the down wireless station at Halifax to-day sent to the Associated Press the following allows affor the halifax to-penings affor the halifax to-penings affor the halifax toing the silence which so far has kep ay sent to the Associated Press the nours affort and the momentous hap to lidwing dispatch:

"We are now in communication with the Carpathia and in position to antourned unofficially that the Titanic to under the Chester at an early bounce of t

this message came: "Expect to be up with the Carpathia within three or

with the Carpathia within three or four hours."

The injection of the scout cruisers into the situation indeed seemed to afford the only hope of opening up-communication with the Carpathia until she reached the wireles zone off Nantucket, as she was apparently too far off shore and her wireless appara-tus too weak to reach the Sable Is-land station in a way to admit of the

CARRIED MORE THAN REQUIRED BY LAW

Disaster May Result in Revision of Board of Trade Regulations

London, April 17.—Mr. Carlisle, of the White Star line, referring to the loss of the Titanic, said:

"Everything that could reasonably b thought of was done in the case of the Titanic and the Olympic regarding the arranging of bulkheads and other de-tails to minimize the risk of ordinary

As to the number of boats carried by As to the number of boats carried by the Titanic, Mr. Carlisle said: "I am of the opinion that the large ships of the present day do not carry anything like a sufficient number of boats, but, until the Board of Trade and the govremments of other countries require sufficient boats to be carried, shipown-ers cannot afford such extra topweight. "As a matter of fact, both the Titanic and the Olympic were fitted with dayits designed for and capable of carrying

four times the number of boats actual fitted in the ships when they went is nited in the snips when they well to sea. Although a large margin was then left, I think I am correct in saying that the Titanic carried 50 per cent more than the number of boats required by the Board of Arade rules."

Mr. Carlisle also though the Board of Trade should make it compulsory to se the watertight compartment doors ships between sunset and sunrise.

"If the points as to the closing of he watertight compartment doors and the watertight compartment doors and the carrying of boats are carried out the public will be 50 per cent safer."

In response to a telegram of inquiry as to the number of boats carried by the Titanic and how many persons they would accommodate, the White Star Company at Liverpool sends the

following message:
"The Titanic had twenty boats, which is in excess of the requirements."

The question of the number of boats carried by steamers has been discussed widely. It appears that the Board of Trade regulations permit a reduction by haif of the number of boats, rafts and buoyant apparatus carried when nd buoyant apparatus carried when he ship officially is provided with air-ight compartments; but this conces-ion does not apply to life jackets and nllar apparatus.

According to some experts it would be impossible to carry a sufficient numbe impossible to carry a sufficient num-ber of boats to accommodate all on-board the mammoth liners, or if car-ried, it would be almost impossible to man and provision them. It cannot be doubted, however, that the disaster will lead to a strict inquiry and a reision of the regulations.

This question has been under discuson for some time by the advisory minittee, composed of prominent ilp owners? and the Board of Trade minittee and certain recommendations have been prepared, which have as to render this impossible, or the essel's side was torn away by an ice-

hat all Cunard steamships follow the outhern routes in order to avoid the cebergs.

Washington, D. C., April 17.—Stirred by the horror of the Titanic disaster, all official Washington is preparing for steps to minimize the possibilities of another such tragedy. Congress began framing regulations to govern life-savframing regulations to govern life-sav-ing appliances and wireless, and Presi dent Taft, doubly touched by the prob-able loss of his military aide, Majo Archibaid Butt, held conferences with cabinet officers to consider control of

In the House, what may result in In the House, what may result in a federal investigation into the cause of the wreck and the enactment of protective measures was begun with resolutions by Representative Mott and Hartwick. The Mott resolution provides for life-saving apparatus. Under the Mott resolution the Merchant Marine Company would sit as a court and compel the attendance of witnesses.

Chairman Alexander, of the committee, said yesterday that the catastrophe would stop the building of such enormous vessels. He favors a law to limit the size of vessels which visit American ports. The committee also expects to report a bill to regulate wireless.

President Taft was in conference nearly two hours with his cabinet of-ficers whose functions cover the opera-tions of this new system of telegraphy Discrete the recently revised plumbing by-laws.

The number of fatalities due to asphysiation by carelessness is one of the factors responsible for Dr. Hastings pation by carelessness is one of the factors responsible for Dr. Hastings pation of the extensive interests of private corporations which have spent unbeathy atmosphere of many public lodging bouses owing to the escaping gas due to faulty connections.

The discussion was griferial and to the exportation of 400 rifles, 120,000 careful from the United States in 1911.

quirements of the general wireless convention to which nerica recently has adhered.

The House adopted a resolution expressing condolence with the relatives of those who lost their lives on the Titanic. The resolution offered by Representative Austin follows:

"Resolved, that this House has heard with profound regret and sorrow of the appailing loss of life on the steamship Titanic and expresses its deep sympathy for the relatives of those sympathy for the result of the sympathy for the result of the sympathy for the result of t

Chicago, April 17.—Captain Chas. Campbell, a veteran seaman attached to the government hydrographic office here, said last night that "longitudinal

here, said last night that "longitudinal stress" on the big boat probably caused the sudden sinking when the Titanic struck the iceberg.
"There is no doubt in my mind that longitudinal stress caused the sudden plunge," the captain said. "When the impact occurred, one end of the boat turned upward, naturally. The rivets at the bottom of the vessel then broke, and in my opinion the entire bottom of the craft.
"If is a mistaken idea that slow boats

are less perilous than fast steamers. Fast ships are much the safer. A sales ships are much the saler. A slow boat striking the leeberg, as in the case of the Titanic, would have met the same fate and there would have been no difference in the results.

The Titanic apparently struck the iceberg a mile or more away from the cast of the cast

e that was visible. In large icebergs it is nearly always the case that a large portion of the ice is covered with water. Some section is visible but a portion a mile or more in length may have been under water. The steamer evidently struck the submerged portion unmindful of any impending danger."

Fate of Dr. Von Bethmann-Hollweg Hangs in the Balance

Berlin, April 17 .- Dr. von Bethmann-

in the most sagacious political quarters that Dr. von Bethmann-Hollweg's official fate hangs in the balance and that Corfu is to decide it.

The statement issued to the effect that the stories of his impending resignation belong to the realm of fables utterly failed to annihilate the impression that the position of the fifth chancellor is wobbly in the extreme and that soon he will follow the fate of Bismarck, Caprivi, von Hohenlohe and von Buelow.

n Buelow. His parliamentary fences are exactly in the same precarious condition as those which caused his immediate predecessor to fall. Forced to raise predecessor to fall. Forced to raise (unds for military and naval extrava-cance, Count von Buelow was sent in-to oblivion because he tried to do it by passing an inheritance tax. It remains to be seen whether the Reichstag, with sance. Count ven Buelow was sent in to oblivion because he tried to do it by passing an inheritance tax. It remains to be seen whether the Reichstag, with its heterogeneous and unstable majority, will prove any more agreeable in financing national legislation on 'Dr. von Bethmann-Hollweg's, plan than it was in 1999 in the case of von Buelow. It is plain that the naval, military and finance debates in the Reichstag immediately after the Easter recess will be warm and acrimonious. It is never difficult to marshal a majority for Dreadnoughts and a fresh army corps, but when it comes to footing the bill for these luxuries the Fatherland's parliament reveals remarkable faculties for balking.

Dr. von Bethmann-Hollweg lacks the political finesse which is so essential to overcome the predicament now confronting him, and if he cannot show the Kaiser at Corfu how, it can be done he will be likely to return home from Achillelon with his political days numbered.

Rumor has any number of candidates ready for the position. Admiral von Tirpitz, the secretary of the navy, is the goasip's favorite; Count von Bernstorff, the German ambassador at Washington, is among those mergine the described as 'the paradise of Candada,' said Capitalin Hutton to a representative of the Times.

# TAFT BUREAU

Declares Former President is Trying to Wreck Republican Party

Capital of landed proprietors abroad for investment purposes. Looking around, they realize that British Columbia forms the national Taft bureau after a view to the White House by officials of the president's campaign neadquar, ters.

"Former President Theodore Roose-veit in his campaign for renomination for a third term in the White House is conducting an organized propaganda to wreck the Republican party. No word or dead has, up to this time, been too mendacious or too mean, either on his own part or on the part of his understrappers, to accomplish the recognized end they have in view.

"Mr. Rooseveit has denounced by name the Republican leaders in New York state who now oppose him for a third term, regardless of the fact that his accepted to the full their support for governor and for vice-president and president of the United States. and notwithstanding the fact that William L. Ward, of New York, who for years has worked hand in glove with every Republican leader in the state from Thomas C. Platt and B. B. Odel down to William Barnes, Jr., has been the active supporter, the political adviser and the personal representative of Mr. Roosevelt is all'dealigh accessary to the progress of the Roosevelt movement tengineered from New York headquarters in this contest.

"In contrast the conduct of President Taft and his supporters stands forth as a sincere endeavor to maintain the Republican party not only in accordance with its principles and tengthered from New York headquarters in this contest.

"In contrast the conduct of President Taft and his supporters stands forth as a sincere endeavor to maintain the Republican party in the progress of the Roosevelt movement engineered from New York headquarters in this contest.

"In contrast the conduct of President Taft and his supporters stands for his presentative of Mr. Alb FOR FLOOD SUFFERERS.

Washington, D. C. April II.—President Taft has sent to conseas a special near the progress of packs and the progress of packs and the progress of packs and the progress of packs

MAKE INVESTMENTS

Capt. Hutton Says Clients Will Send Out Carefully-Selected Settlers

Vancouver, April 17 .- Entruster with Berlin, April 11.—Dr. von Bethmanns-Hollweg has left Berlin to spend a few days with the Kaiser at Corfu.

The chancellor's invitation to stay a week at the Villa of Achilleion as his imperial master's guest is a signal honor, but the impression is prevailing in the most sagacious political quarters in the most sagacious political quarters that Dr. von Bethmann-Hollweg's of visitor is a former resident of the Okanagan Valley, and travel through various districts of the interior has given him an extensive knowledge of the resources of the province. He was the resources of the province, He was a member of the Duke of Suther-land's party which visited British Co-iumbia last year, and which also in-cluded Lord Desborough and Lord Charles Beresford,

Charles Berestord.

Largely owing to his representations, the Duke of Sutherland acquired large areas of farm lands in the Fort George district in the vicinity of the main line of the G. T. P. The Duke, it is understood, will visit this province shortly in connection with plans for a colonization project involving the settlement of his farm tenants on these settlement of his farm tenants on thes

in the way of the development of the agricultural resources of this province, as several of my clients purpose using the land for colonization purposes. This will mean the sending out of carefully-selected people, many direct from the farms of their landlords. Apart from the favorable attitude of the reactive testing the taxatlen measures visitors, the taxatlen measures resources the taxatlen measures. Apart from the favorable attitude of las year's visitors, the taxation measure of Rt. Hon. Lloyd George, Chancellor of the Exchequer, is contributing largely to the movement of the capital of landed proprietors abroad for investment purposes. Looking around, they realize that British Columbia offers better and safer inducements than any other portion of the

#### THE TITANIC DISASTER.

There is no mystery attached to the sinking of the giant steamer Titanic The great vessel was pronounced by her builders and believed by most people to be practically unsinkable Hence there was something mysterious to the ordinary mind about the manne of her foundering and the rapidity of it. But whatever cloud of uncertainty there was has been lifted by the announcement that the Titanic was travelling at the rate of eighteen knots an when she collided with an immense iceberg. When a hollow body of the proportions and weight comprised in between sixty and seventy thousand tons going at more than twenty miles an hour encounters a practically solid body of ice only one thing could happen. The hollow body, however strongly constructed, must necessarily be rent in such a manner as to fall an easy prey to the weight of water which immediately invaded her compartments. There is therefore little use in attempting to disguise the fact that the loss of the White Star steamship Titanic was due to a blunder on the part of some one in authority. The people who go down to the sea in ships have been taught a lesson which may prove salutary, that there is no such a thing as an unsinkable ship and that even the largest craft built by man cannot afford to take chances.

Of course all the world sympathizes with those who have been so suddenly and so unexpectedly bereaved. Messages are pouring in from crowned heads and rulers to the managers of the White Star Company in the terrible calamity that has befallen it and those prised in between sixty and seventy

### TEMPERANCE IN ONTARIO.

The one province in the Dominion advanced temperance sentiment is and always has been, one of the disagnin in the three controls. again in the throes of a conflict of pinion with respect to the next best war on the fly.

With the return of the spring season the fly is making her annual debut. The spring poet is waxing festive, if forced out of his procrustean shell by a motion in the legislature made by a motion in the legislature made by a motion in the legislature made by spring housewife is being facetion.

War on the fly.

With the return of the spring season the fly is making her annual debut. The spring poet is waxing festive, if mot original, at her expense, and to spring housewife is being facetion. The fly was taking the fly in Canada, tells an amusing little yarn about the unconventional ways of the westerners when they want to see a show. "It was out in Wardner, a little town in blank," said the theatrical man, "a few years ago, and I was with a musical comedy troupe. I was taking tickets at the heatrical man, "a few years ago, and I was with a musical comedy troupe. I was taking tickets at the heatrical man, "a few years ago, and I was with a musical comedy troupe. I was taking tickets at the heatrical man, "a few years ago, and I was with a musical comedy troupe. I was taking tickets at the heatrical man, "a few years ago, and I was with a musical comedy the heatrical man, "a few years ago, and I was with a musical comedy the heatrical man, "a few years ago, and I was with a musical comedy the heatrical man, "a few years ago, and I was with a musical comedy the heatrical man, "a few years ago, and I was with a musical comedy the way in the man and the part of the spring heat years ago, and I was with a musical comedy the man ago of the grand the man and the part of the spring heat years ago. step in progressive temperance legis-When Mr. Newton W. Rowell was made leader of the Liberal party in not that there is a serious feature of the Ontario House just before the provincial elections of last autumn his a clean insect, as some insects belong-pronouncement. upon a temperance ing to the family of pests are con-legislation was eagerly awaited by a sidered. The fly is not inocuous, but large section of the electorate who is indicted by science, proved and be. "I let them all in free." have always looked to the Liberal found guilty of the crime of being a party for any advances of this char- fifthy insect. Its menace goes far be acter. The precipitancy with which youd the simple matter of annoyance Sir James Whitney brought on the appeal to the voters prevented the new and habitue of the noisomest and mos leader from reorganizing his party on virulently poisonous accumulations of a definite platform, but that omission fifth and disease-germ breeding place. has since been rectified by the adop- that it can discover. ENJOYABLE CONCERT Was Given By Women's Industrial Exchange Last Evening.

The concert held last night at the Alexandra Club under the auspices o the Women's Industrial Exchange, wa most successful, although the audient was not as large as it should hav been for such an excellent performan as was given. The miscellaneous programme with which the entertainmen opened included Serjeant's "Watch man, What of the Night?" by Messre man, What of the Night?" by Messrs. Petch and Hughes, baritone and tenor, who gave this beautiful duet in most expressive and artistic manner. Each of these artists appeared at a later period of the programme. Mr. Petch singing "Thora" and "Mary Mine," and D. C. Hughes "Macushla," and, as an encore, "When Other Lips," the several items receiving well-merited applause. Considerable surprise was felt at the conclusion of the recitations by Miss Gladys Steinmetz, a girl not yet in her teens, that one so young could give such a variety of recitations with so much finish and self-possession. Of the four recitations given, perhaps the the four recitations given, perhaps the last, "Bobby Shafto," was the best, as

Enquiries are made for him to the Victoria police by his mother, Mrs. Saxby, Laddingford, Yolding, Kent. England, who has not recently heard from her son. She sends the police the following description of him:

Height, 5 feet 10 Inches; weight, 188 pounds; light hat; hizzel eyes; fall pounds; light hat; hizzel eyes; fall complexion. Two hands are tattoed on one arm and on the other the figure of a Japanese girl. The missing man was fond of the Salvation Army and was frequently in the barracks in his home town in England.

INQUIRED FOR pecked husband whose wife takes all his earnings, makes him enormous, mis-shapen trousers which he wears rather than face her wrath, and who talks incessantly about the virtues of her former husband whom she has thought drowned for many years. The scene changes when the latter comes back and tries to sell his claim to the uncoveted lady. He is a great burly bully, and his attack on Shamons (Mr. Conway Bunnett) draws the sympathy Conway Bunnett) draws the sympathy of the audience at once. The part of 30b Ford, the supposed-to-be-ship-wrecked husband, was very ably taken by Mr. Herbert Maude, while Mr. Bun-nett took the role of the timid and yet exasperated Simmons with a very real appreciation of the miseries of his state. Miss E. Bunnett as Mrs. Simstate. Miss E. Bunnett as Mrs. Skmmons was quite clever, and, with the
exception of a rather noticeable nervousness, was the rasping, nasging
wife to the letter. The whole production reflects creditably not only on the
actors themselves, but on the producer,
Miss Constance Bromley. The Women's Industrial Exchange will give a
series of these concerts, and have almen's industrial factoring with a series of these concerts, and have already arranged for one to take place on Tuesday, April 30, when another one-act comedy will be given and Miss Constance Bromley will appear in a number of humorous monologues.

Easter Vestry Meeting Last Evening. Election of Wardens and Officers.

The annual vestry meeting of the parish of St. Barnabas took place last evening, when a resolution was passed, calling for the plans of the proposed church building. This will seat about 300 people and the estimated cost is in the neighborhood of \$15,000. The rector's report showed an all-round increase in the number of communicants, Sunday school scholars and in the congregations, at both morning and evening services.

The following are the appointments and elections for the coming year:

Rector's warden—E. E. Wooton', people's warden, Mr. A. J. Abbott.

Church committee—Messrs. A. M. Bannerman, G. Knox, A. Longfield, Hampton, Allnutt, J. D. Bishop, G. Donne, Moss, Whittaker and E. Smart.

Sidesmen—T. S. Mills, J. H. Davies, A. Mutlow, E. Smart, G. Donne, and J. Hollett.

Hallett.

Lay delegates to synod.—Hon, Mr.

Justice Martin, T. W. Palmer, A.

Longfield, A. J. Abbott, J. D. Bishop,
and E. M. McConnan.

Delegates to ruri-decanal conference.

—Messrs. Longfield, Bannerman, and

ushered in yesterday. Two extra in ning games were the tit-bits served up to the fans in Spokane and Seattle while the "bugs" in Vancouver had the pleasure of seeing "old man" Engle

That was when he underrated the slugging ability of a young and unknown infielder from the San Francisco sand-lots and grooved one for him in the twelfth. Davis poked the sphere full in the face and drove it to the left field in the face and drove it to the left field fence, upon which Zimmierman, who had been reposing in the first cushion, dusted round the paths with the windusted round the paths

dusted round the paths with the winning score.

"Mac" was a little uncertain in the opening sessions and the Indians gathered in four runs before he hit his stride. At this stage it booked as if the redskins had the game tucked away and wouldn't have to bother any more. But in the sixth the Bee batisman fell on Willia, who had been huring shut-out ball, and pounded in four runs, tieing up the score. A couple of singles and a three-base slam by the redoubtable Lou Nordkye, himself a former Indian, did the work.

After this both twirlers tightehed up and but for McCreory's blunder in the fatal twelfth darkness might have ended the game, for-both seemed to be getting stronger all the time.

A crowd of 3,000 fans witnessed the A crowd of 3,000 fans witnessed the

nings; 3 runs and 4 hits off Blo field in 5 innings. Umpire, Moran, Beavers Come From Behind.

Beavers Come From Behind.

Outhit three to one the Beavers came from Behind at Vancouver yesterday and won from the Tacoma Tigers by a score of 3 to 1. In this tradition was observed because Engle has for the past ten or cleven years always won the opening game wherever he happened to be. Both he and Schmutz were in mid-season form and were accorded fine support. A walk, Yohe's bad heave and Demaggio's single in the eighth gave the Beayers the game. The score:

## PREPARING FOR FISHING SEASON

HON, W. J. BOWSER SEES FED2RAL OFFICIALS

Discussing the All-Important Question of Regulations-Inspectors in City

les, and the attorney-general is now returning the compliment by confer-ring with the federal fishery officials. It is understood they will discuss the subject of boat-rating and other regu-lations that may be required during the coming season.

the coming season.

As the district he represents in the House of Commons is vitally interest ed in the fisheries question, H. Clements, M. P. for Comox-Atlin, is participating in the discussion.

The total capital subscribed by Great Britain last year for use at borne an abroad was £157,128,036 (just short of H, 900,000). It was £22,142,731 in 1910, £213, 093,738 in 1907, £304,757,555 in 1808, and £131, 47,82 in 1807.

## Sooke Motor Stage

Leaves Dixi Ross' at 8 a.m., except Wednesdays (when it leaves Sooke at 8 Other days a.m.) from Sooke at 10 a.m., arriving Dixi Ross' about 12, noon.

Sundays from Dixi Ross' 9 a.m., leaves Sooke about 4 p.m., due Victoria 6 p.m.

Fares, single, \$2.00. Return, \$3. (Good for one week.)

THE SONGHEES BRIDGE

STRUCTURE FROM SONGHEES POINT TO LAUREL POINT SUGGEST-.ED BY W. G. WINTERBURN, C. E

The attorney-general, who is also acting premier, is busy these days wrestling with the fisheries problem, and in order to entirely harmonize the federal and provincial relations on the important matter, he to-day is in conference with officials of the Dominion at the information of the important matter, he to-day is in conference with officials of the Dominion and the important matter, he to-day is in conference with officials of the Dominion as the existing amount of traffic is almost sufficient to definand its being long than chief inspector for British Columbia.

These officials are F. H. Cunningham, chief inspector for British Columbia, E. G. Taylor, whose district is Vancouver, Islahd and vicinity, and John T. Williams, whose territory is northern British Columbia.

This fisheries depastion or that phase of it which amounts to dual authority on the pay of the Dominion and the province is a brow winkler and a hair-graper. When the Liberals were in power at Ottawa the conflict of auctority was, not unexpecter, but it was triumphantly predicted that when the first of the modern their motion in one aphere, and this is true no matter what may be the political denomination of the stars.

Hon, J. D. Hazen is minister of fisheries, and considers himself the food father of Canada's fisheries, which includes those of British Columbia, subject to certain constitutional limitations. Hoh. Mr. Bowser also re-

# which includes those of British Columbia, subject to certain constitutional limitations. Hon. Mr. Bowser also regards it as his duty to exercise paternal care over the matter, subject also to constitutional qualifications. The federal minister recently went into the subject fully with the provincial deputy commissioner of fisher-vincial deputy commissioner of fisher-

family, he entered the amusement business ferty, years ago in Italy, although he is still a comparatively young man. After travelling over Europe he spent several years with the famous Blondin in England and then started a circus of his own in Australia, taking it over Asia and Australasia. His first venture with Barnum and Bailey was in 1899, when he first came to America. From that time on his services were in high demand all over the country, and the St. Leon family, thirteen in all, of whom only seven are now left, became family seven are now left, became family with the circus world. Of that family Miss Ida St. Leon was recently in Victoria starring in "Polly of the Circus," while the others are still in the circus line.

In addition to his acrobatic abilities Arthur St. Leon has gained some reputation on the stage proper, and has appeared as "Dick the Rat" in "Alias Jimmy Valentine," which was here last winter and has also faced the footlights in several other plays, including "Hamlet," and the "Old Curiosity Shop." Like his tutor, Blondin, he has crossed the Niagara Falis on a steel wire, which feat he performed at the Fan-American exposition; he has travelled with Barnum and Balley for five years and has delighted audiences with his skill and daring in every nook and corner of the world. He has mastered not only the difficult art of wire-walking, but also the flying rings and the trapeze, ground tumbling and head and ing, but also the flying rings and the trapeze, ground tumbling and head and hand balancing. His repertoire in this respect alone is said to be more extensive than that of any other living performer.

sive than that of any other living performer.

In the course of human events St. Leon has had a great deal more than his share of hairbreadth escapes. In the great wreek of the steamer Berlin, which went down at the Hook of Holland in the summer of, 1906, out of a total of 332 passengers he was the only person to be saved, being washed ashore in a half-dead condition; and this though he could not swim a stroke. Again, while riding horseback through South Africa during the war time, he was struck in the mouth by a fragment of a bursting shell, was crashed from his horse and was unconscious for three weeks afterwards. After regaining consciousness his voice was gone and he remained dumb for six years. His face attli reveals the disfigurement he received on that occasion.

plosion took place, and St. Leon was scalded from head to foot with boiling water. As a result of that accident h spent three more months in a hospital But the greatest evil of all which be

ARTHUR ST. LEON IS

PLAYTHING OF FATE

Now in Victoria After World—
Wide Adventures—Long

Chapter of Accidents

There are some men who seem to have been marked out at their birth to be the playthings of Fate, who are called upon to withstand the buffetings of misfortune at every turn, and the tale, of whose lives makes that of the ordinary mortal seem infinitely commonplace in compartson.

Such a one is Arthur St. Leon, who has reached Victoria after adventure in every part of the world, and whose life has possibly been packed with more adventurous incidents, more halr-breadth escapes than that of any other man living. Seen by a Times representative at the King Edward hotel today, Mr. St. Leon, who shows the marks of his terrible accidents (though all their terror has not been able to durch his hearty cheerfulness and unquenchable spirit) gave a graphic account of his life's story.

As the first of the famous St. Leon family, he entered the answerned the size of the first of the famous St. Leon family, he entered the answerned the size of the performance Arthur St. Leon, who has reached victoria after adventures and two ribs and had his skull fractured. The wonder is that he still lives to tell: the tale.

Such a one is Arthur St. Leon, who has reached Victoria after adventure in compartson.

Such a one is Arthur St. Leon, who has reached Victoria after adventure in compartson.

## **OLDEST AND NEWEST** HOLT SHIPS AT DOCK

Keemun Clears With Heavy Cargo for Liverpool-Talthybius Unloading

Lying at the outer docks this morn-ing were two steamships representing This Season the newest and oldest of the Holt liners, in the trans-Pacific trade. The crack twm-masted steamship Talthybius, Capt. Allen, discharging European and Oriental cargo, represented the last word in steamship construction, and moored at an opposite was the freedful disaster which overtook the new palatial liner Titanic, Capt. Smith, which was on her malden trip from Southampton to New York. Besides advancing many theories as to how the terrific accident may have occurred seafaring men express the opinion that the nations of the world should maintain a patrol of the Atlantic during this season of the year the newest and oldest of the Holt lin-

occurred seafaring men express the opinion that the nations of the world should maintain a patrol of the Atlantic during this season of the year in order that the big plassenger vessels might be given the position of dangerous bergs sighted.

No matter how careful a mariner may be he receives no warning of the nearness of the huge icebergs to his command until within a few ship's command until within a few ship's lengths, and then if the vessel is proceeding at any speed it is impossible to bring the craft to a standstill before she has piled up on the jagged edges of the ice and her hull ripped open. Inventions have been perfect ed for telling the mariner the proximity of ice, but they have falled as often as they have been found successful.

A local skipper, speaking with a Times representative this morning, said he thought the various nations interested in the operation of steam ships across the Atlantic should have, at this season of the year, when ice is prevalent in the northern part of that ocean, a vessel to patrol the waters and keep a sharp lookout for the reacherous bergs, reporting to all vessels the positions of them. Great Britain, United States, Canada and Germany, France and Russia should each dispatch one vessel, and when she sighted a berg it would be her duty to flash wireless messages informing all skippers in the vicinity of the menace to navigation.

She has several thousand tohs of freight for that port and will remaine case of the canadian, and to take on her first outward cargo, including 10,000 cases of flour, 2000 cases of flour, 300 cases of flour, 2000 cases of flour, 2000 cases of flour, 300 cases of flour, 300 cases of flour, 2000 cases of flour, 300 cases of flo

## **PAVING OPERATIONS BECOMING NORMAL**

#### STRIKERS THREATENED WITH DEPORTATION

Deputation Waits on Mayor Beckwith - Many Men Back at Work

altogether disinterested in connection with the strike, were taken to the police station yesterday from Herald street, and their names were entered. The men were then allowed to go.

The men were then allowed to go.

Sam Higginson, secretary of the Victoria Council of the I. W. W., and other strikers, had a long conference with Mayor Beckwith yesterday afternoon, and asked if the Canadian Mineral Rubber Company were bound under their contract to give a minimum wage of \$3? The mayor pointed out that the city was paying \$2.75 a day when the big contract was let. He asked the deputation if they did not think they might have done better by putting in a peaceful request for the standard minimum wage to the comstandard minimum wage to the cor standard minimum wage to the com-pany instead of going out on strike, and then going down and demanding the increase, disorganizing the whole busi-ness of the paving work in the city? The deputation asked for permission to "talk" to their comrades from the sidewalks, or in other words, to picket the workers.

the workers.

This the mayor refused absolutely to allow, and said he would see that the police deported all those whom they legally could, if the strikers did not observe the peace, and stop intimidation.

As the result of a call on the chief of police and an arrangement for protection, many more men have resumed their picks and shovels, and the strike shows a tendency to collapse.

their picks and shovels, and the strike shows a tendency to collapse.

The I. W. W. has issued a notice that men in search of work wiff be accommodated at the headquarters, No. 1223 Oriental alley, and that a commissary has been opened there. It is thought by the end of the week the strike will have completely collapsed.

The Industrial Workers of the World this morning issued handbills printed in English and in, Italian, urging men to join the one big union and meet at the I. W. W. headquarters.

Copies of the handbills were obtained by the chief of police but no action

by the chief of police but no action can be taken in regard to them. There were three men who yesterday used loud language to the workers employed by the Canadian Mineral Rubber Com-nany who were taken by the police for their own protection to the police sta-tion. They were released and warned not to interfere with the men of the

tubber Company.

The handbill issued to-day reads as

Working Men If you are in need and must work

Come to the I. W. W.

Headquarters at
1323 Oriental Alley.

There is a commissary established an
being maintained by your
fellow-workmen.

## **SCHOOL BOARD VOTE** IN CIVIC ESTIMATES

Why Swollen Figure Appears -Temporary Arrangement Over High School

The vote for education this year passed in the civic estimates, although comparing favorably with 1911, is altogether exceptional. The citizens must not therefore suppose that the education of four thousand children is costing Victoria \$273,000, or over a quarter of a million a year.

The actual cost is about \$147,000, or

with the strike situation becomes easier failty, and the number of men who are abstaining from work is decreasing. The company has now between 200 and 150 men on the streets, and the numbers who returned yesterday enabled work to be restarted at Quadra street, where the centract was idle up till this morning. There are now gangs on superior, May, Esquimalt road, Herald, Courtney, Niagara, Moss and Quadra. There has been a certain amount of picketing, some of it not altogether of a peaceful nature, and as a consequence three men, Richard Gould, M. Calagero and Victor Manzo, whose actions the police did not believe to be altogether disjinterested in connection tonal purposes.

The explanation of this anomaly in the school board's finance is due to the fact that the city is entitled to the fact that the fact that the city is entitled to charge up to education under the special arrangement made under the agreement of May 1910 for the High School site, the cost of expropriations which were made to free the block bounded by Gladstone avenue, Grant street, and Fernwood road for the sahool site, and the cost of grading same, and placing thereover six inches of clay and four of mould by March 1 of this year. This fund is to be met in the two years named.

This grading, although it should have been finished under the agreement, is still in progress, the quantity of material required to cover the area ten inches deep being very considerable. Hence the six mill rate, as it approximately amounts to, while the real cost of education in the city is lower than you when the object of the

Vancouver or Tacoma.

Next year, when the object of the agreement has been fulfilled, there will cease to be any necessity for this large sum for the cost of education.

**GOVERNMENT HAS MAJORITY OF 94** 

Bonar Law Says Ulstermen Will Lay Down Lives for Justice and Liberty

London, April 17.—The Home Rule Bill passed its first reading in the House last night by a vote of 360 to 266. The announcement of the figures was received with deafening ministerial cheers and waving of hats.

In the debate Andrew Bonar Law, summing up for the opposition, severely scored the bill and the government. "The people of Uulster were ready in what they believed to be the cause of liberty and justice to lay down their lives," he declared.

cause of liberty and justice to lay down their lives," he declared.

Concluding, he said: "You with not carry this bill without submitting it to the people. If you try to do so you will succeed only in breaking the parliamentary machine. The bill has been introduced because the government is dependent upon the Irish votes. The prime minister gave a solemn pledge that he would reform the House of Lords, but that debt of honor must wait till he has paid his debt of shame."

T. P. O'Connor said they had never heard of any danger of persecution in the south and west of Ireland where Protestants were in the minority. If Catholics were disposed to persecute too be indulged in the parts where Protestants were in the minority? What was the fact? All this charge of religious persecution was one of the empirest means the area.

of religious persecution was one of the emptiest, meanest, and one of the most lying calumiles ever heard. (Ministerial and Nationalist cheers.) The University Club of Victoria held their would weekly luncheon this after most. I ring calumnies ever heard to the most pring calumnies ever heard to the pring calumnies ever heard to the first of the protection of their protection of their the case was that if the reason to thick was the transfer to a government which was in the majority Catholic. That was find the membership of all the most pring calumnies ever heard to the the same case was that of Ulusian to the principle of the case was that of Ulusian to the principle of the case was that of Ulusian to the principle of the case was that of Ulusian to the principle of the case was that of Ulusian to the principle of the case was that of Ulusian to the principle of the case was that the obligation. The case was that the obligation that the case was that the obligation to the top of the case was that the obligation that the case was that the proposal be taken

## RASH SO BAD BABY

# CAME NEAR DYING

Head Broke Out. Spread to Arms, Legs and Entire Body. Itched So He Would Scratch Until Blood Ran. One Box of Cuticura Ointment and Nearly One Cake of Cuticura Soap Cured Him. Has Had No Return.

"When my boy was about three months old, his head broke out with a rash which was very tichy and ran a watery fluid. We fried everything we could but he got worse all the time, till it spread to his arms, legs and then to his entire body. He got so badthat he came near dying. The rash would itch so that he would scratch till the blood ran, and a thin yellowish stuff would be all over his pillow in the morning. I had to put mittens on his hands to prevent him tearing his skih. He was so weak and run down that he took fainting spells as if he were dying. He was almost a skeleton and his little hands were thin like claws.
"He was bod about eight months when we tried Cuticura Remedies. I had not laid him down in his cradle in the daytime for a long while. I washed him with Cuticura Soap and put on one application of Cuticura Contment and he was so soothed that he could sleep. You don't know how glad I was he felt better. It took one box of Cuticura Cintment and pretty near one cake of Cuticura Soap to cure him. I think our boy would have died but for the Cuticura Remedies and I shall always remain a firm friend of them. He was cured more than twenty years ago, and there has been no regum of the trouble. I shall be glad to have you publish this true statement of his cure." (Signed) Mrs. M. C. Matliand,

glad to have you publish this true statement of his cure." (Signed) Mrs. M. C. Maitland, Jasper, Ontario, May 27, 1910.

For more than a generation mothers—vafound a speedy, agreeable and economical treatment for their skin-tortured little ones in Cuticura Soap and Ointment. Although, they are sold by druggists and dealers everywhere, altheral sample of each may be obtained free, from the Potter Drug & Chem. Corp., sole props., 53 Columbus Ave., Boston, U.S.A.

# PROGRESS ON SOOKE

REPORT ANTICIPATED ON THREE MONTHS' WORK

Under Terms of Specifications -The C. N. P. Action Over Right-of-Way

tions for the Sooke Lake contract called for 6 per cent. of the work to onths of signing the contract, and 15 per cent, during the first six months per cent, during the first six months, and as three months have now elapsed since the contract was signed as the first official act of Mayor Beckwith's administration, the fortunate presence of Consulting Engineer Meredith in the city on his return from business on the American side will enable the city council to have a report on the progress to date from the consulting engineer of the work so far accomplished by the Westholme Lumber Company, and it is understood that Mr. Meredith is preparing such a report. Meredith is preparing such a report.
Meanwhile the expropriation proceedings proceed as fast as circumstances permit. A large number of cases have already been settled.

The water commissioner and the corporation have been made joint defendants in the action brought by the Canadian Northern Pacific railway against the city in connection with the removal of the right-of-way from the lower level to a higher bench of land along the edge of the lake, and a statement for the defence has been filed, but no information is available when the case will come for trial. The company's officials claim that the work will be tied up six months on account of the litigation, although work on Moore & Pethick's contract, beyond the lake, is in progress, while the city contends that ample notice was given of the area to be flooded when the proposed dam is constructed. The water commissioner and the

ST. MARGARET'S SCHOOL

Weil-equipped girls' institution re-places old school on Cook street.

The St. Margaret's school girls, who left little more than a week ago for their Easter holidays, returned yesterday morning to recommence their scholastic work in the new building on

scholastic work in the new building on Fort street, some of them after spending the past three years in the old school on Cook street. The new building is a spacious, well-equipped establishment, which will provide everything in the way of educational facilities for the eighty odd girls who will in future attend there daily.

The "schoolhouse," as the main building with the classroom is to be called, has six big class-rooms on the main floor, three at the east side being for juniors, and two en the west for schools, a third room at the same end of the building being fitted up as a kindergarten—a department which will be under Miss Frazer. On the floor under Miss Frazer. On the floor above this there is a fine studio facing north, which with its long row of windows is splendidly lighted. The management are already considering the division of the studio in order to add a Iomestic science department to school—a branch which will bring ent quite up to the best of

modern schools.

On the ground floor there is a mag
nificent gymnasium, which will be fit
ted up with regulation appliances
vaulting-horse, ladders, ropes, rib
stalls, and dumb-bells; this depart stalls, and dumo-beils, this depart-ment is under the control of Miss Hayne, who teaches the Swedjsh method. The dancing class will also be held in the gymnasium. The school building is fitted with fire-extinguish-ing apparatus on each floor, and the four dressing rooms—each fitted with individual lockers—afford abundant

room for the giris' possessions.

The building is also provided with a music room for those day pupils who take instruction in this subject at the school, although there are no less than three music rooms in the boarders' building which adjoins.

The boarders' residence is very comfortable and homelike in its arrangements.

Ights were extinguished when the doors were closed. The visitors to the house became greater in number on each night, and getting by the side of the house the constable was able to hear a conversation that took place inside.

On the third night his attentions to the house had evidently, become known to the inmates, for he observed that the accused Chang paraded the fronty ard in company with a large 'build dog and watched the constable who stood near by. When the police entered they met the build dog in the passage. Mrs. Chang had tried to bar their entrance, and when she falled she called to Chang to come and put the men out. Mrs. Chang occupied a chair in court, and on one occasion when an officer told of a conversation between himself and her, the woman burst out laughing. The constable had been told by Deputy Chief Palmer to stay with her, in the room while the other parts of

# ON AGENDA FOR

AMENDMENTS TO LABOR COUNCIL CONSTITUTION

Hall Committee Has Completed 4ts Labors - Local

At the time of the first consideration ments to the constitution of the local Trades and Labor Council it was not possible to pass more than the pre-amble, and even this did not get through without considerable opposi-tion. There are still two highly con-troversial paragraphs unreached which ie special committee recommend for onsideration. They are the amend-ent of the rule barring religious and

political discussions, and of the clause dealing with the personnel of the members of the council, which would seek to remove the barrier to men sitting on the council who are not actually engaged at their craft, or as delegates paid by their unions for specific organization work.

It is extremely doubtful if the council will get through the amendments to the constitution to-night, as there is other work to be done, and the report on the present labor hall has to be received, the special committee having completed its work now, and the carpenters quitted the hall. The cost of fitting up has been considerable, but the committee, is looking for a revenue from the rent of some of the halls to meet the cost of upkeep.

Work in the building crafts is fairly

## PRESENT MEMBER AND EX-MEMBER

H. S. CLEMENTS HERE; SO IS WM. SLOAN

One Listens to Political Representations While the Other Enjoys the Music

H. S. Clements, M. P. for Comox-Atlin, was among those who registered at the Empress hotel yesterday; so was William Sloan, ex-M. P. for the same district. Mr. Clements spent the evening as a member of parliament usually does, in sweet communion livers well-meaning gentlemen who patriotically endeavoring to him how the country's business should be conducted. Mr. Sloan, relieved of the cares of office, if membership in the House of Commons can be de-scribed as an office, listened apprect scribed as an office, listened appreciatively to the music, and presented an appearance of prosperous contentment. Mr. Clements' principal mission to the capital is to discuss the matter of fishing' regulations with the attorney-general and the several Dominion fisheries officials, who are also here. The complications and embarrassments of the debrice structure are new to Mr. the fisheries situation are new to Mi Clements, whose previous parliament ary experience has been confined t West Kent, in Ontario, where his con stituents were more concerned with agricultural products, than anything else. The subject of fishing regulations, cannery licenses, etc., etc., he will find very engrossing, and the study of its many details will serve to occupy his mind. Mr. Sloan, who formerly repres

ed Comox-Atlin, and who broke acclamation record for Canada, only manifests an academic interest in the manifests an academic interest in the study which Mr. Clements has taken up. Time was when he, too, delved deep into the complications of the question, the representations of the cannery men, the innumerable applications for licenses, overseers' jobs, etc., etc., but now those also are in the book of his past.

Mr. Sloan recently returned from Ottawa, his principal mission to the east being nothing less than attendance at the annual dinner of the parliamentary press gallery. Parliaments may come

## There Is No Better Buying Than Lots In Our HILLSIDE SUBDIVISION

## **ONLY A FEW LOTS LEFT**

Only a very few of these lots remain at present prices, which is a strong reason why you should investigate this property at once.

But that is not the only reason. Every one of these lots will be within two minutes' walk of the new car line and near the site of the Normal school. In addition to this, the lots themselves are choice. Every lot is level, dry and has been under cultivation. All have a frontage of 60 feet and not one of them faces the north. ..

These are the advantages you would naturally look for in an investment lot. They are the advantages which will make money for the people who buy these lots at present prices.

Get in and buy one of these lots now. It will soon be too late.

## PRICES FROM \$800 TO \$850

TERMS ONE-QUARTER CASH, BALANCE 6, 12, 18, 24 MONTHS

Don't wait, but come in and get a marked plan right away and then go out and see these lots. We will take you out if you wish.

IT WILL PAY YOU TO MAKE YOUR APPOINTMENT TO SEE THIS PROPERTY NOW. THERE IS MONEY IN THEM FOR YOU

# ARRANGING FOR

WOMEN'S COUNCIL IN SESSION YESTERDAY

Unusually Long Programme of Business Disposed of-Preparing for National Council

The Local Council of Women met Yesterday afternoon in the auditorium of the Y.M.C.A., the president, Miss Crease, in the chair. The session was unusually long, and covered the ar<sup>2</sup> rangements for the two annual meetings which are to be held next monthation, the Local Council sorly in Crease, in the chair. The session was unusually long, and covered the arrangements for the two annual meetings which are to be held next month—that of the Local Council early in May and of the National Council on May 24, the latter to be held in London, Ontario.

The nomination for provincial vice-president resulted in Mrs. R. S. Day's name being put up; fals.

ane nomination for provincial vice-president resulted in Mrs. R. S. Day's name being put up; this, however, the nominee declined after stating her reasons. It was decided in view of this that the Vancouver candidate, Mrs. James McAuley, should be sup-ported in the election by the Victoria Council also.

As no member of the Local Council was reported to be attending the meeting of the National Council, and the appointment of some delegate was necessary, Mrs. Spofford moved that the officers should be empowered to instruct any member of any of the provinced council, who might be appointed to the provinced council, who might be a specific and the provinced council, who might be a specific and the provinced council, who might be a specific and the provinced council, and the provinced council instruct any member of any of the provincial councils who might be going, to act as a delegate by proxy. Mrs. Jenkins moved that Mrs. White be appointed as delegate in the event of no direct representation being fecured. This motion was adopted. The correspondence included a fetter from the National Council asking for instructions as to the number of year books which would be required. In this connection it was suggested by

In this connection it was suggested by Mrs. Bradshaw that a committee should be formed to undertake the disposal of the books ordered, and a imittee of three was formed for

A letter was also read from Mrs. Haseil, who, on behalf of the Alexan-dra Club, offered the use of the ball-room for the two days annual meetroom for the two days annual meeting of the Local Council next month, and, if desired, for an evening meeting also. This generous offer was accepted, after a hearty vote of thanks had been expressed by the unantimus applause of the council.

A letter was read from Mrs. Willoughby Cummings, secretary of the National Council, promising that in future communications would be sent to the Victoria Council in time to al-

low it to take part in the national executive business when this is desired.

The resolutions for the agenda of the National Council, which were numerous, were next dealt with; these included one with reference to the celebration in 1914 of the hundred years peace between Canada, the United States and England. Mrs. Van Sant, an American, moved the adoption of this resolution, and received a ready second from Mrs. William Grant. This motion was adopted by unanimous vote.

Another important resolution had to

analmous vote.

Another important resolution had to do with the admission of the Sikhs, asking either that emigration from India be entirely prohibited or that the laws on the subject should be definitely stated so that the wives of the Hindus already here might be permitted to enter. Some division of opinion arose on the subject, but it was finally decided that the council should stand by its previous resolution.

school.

After some discussion it was decided that an evening meeting should be held at which an effort would be made to get some good speakers to address the council. This will be in the nature of an informal social. The several committees were appointed to undertake the necessary arrangements.

A resolution over which considerable discussion arose was that from the Friendly Help asking that idle menshould be compelled to work and the remuneration for this to go toward the support of their families. It was contended by several of the members that the adoption of this resolution might, lead to trouble with striking might lead to trouble with striking

Reports were read by Mrs. Graves, Mrs. Spofford, Mrs. Gordon Grant, Mrs. Jenkins, and Dr. Helen Ryan—all convenors of National Council com-

ROBERT R. HEDLEY WILL **INSPECT NEW PROPERTY** 

Ground Hog Coal Field Re-quires Rail Facilities as First Essential to Development

On a visit to inspect a property in which his company proposes to take an interest, Robert R. Hedley, the well-known mining engineer, arrived in the city last night and left on the E. & N. morning train to-day.

Mr. Hedley, who enjoys the reputa-tion of being one of the most san-guine mining men in the province, and most confident for the future prosperity of the industry in British Columbia, has taken 'opportunity re-cently in addresses before various bodies and in private to discount wild-cat schemes, and to encourage the elimination of that spirit of gambling which cannot be entirely

idea, becoming fortunately a little less

idea, becoming fortunately a little fess prevalent, that any man can open a mine. One can point to scores of cases where a mining engineer's fee would have saved thousands of dollars.

"Fake promotions are often made on the mest flimsy prospects—a doubtful statement of the existence of an outcrop, a few assays of picked specimens, without even sufficient evidence that they came from the property in question. Then it is capitalized at a million shares of a dollar per share par value. A large proportion is given in payment to the owners and a further large proportion is taken by the promoters. A comparatively small proportion put in the freasury and a block is sold at ten cents. An irresponsible man is selected to open up the mine, and after a short time on

the strength of a report none too re-liable, a further block of stock is of-fered at an enhanced valuation. About this time the promoter and the erst-while owner get from under, dispose of their stock, and the end is at hand.

"It is in the hands of the public to remedy this—to make such promotion hapossible. When asked to subscribe, don't look at the names of the promoters and calculate the chances of their being able to carry it to a second or even third rise in valuation, but examine the body of the report. Don't expect extravagant statements of values and estimates of rash profit, such occur but rarely in legitimate mining, but demand evidence, backed by the opinion of a reputable mining engineer, that commercial ore exists. See that the exploitation and development of the mine is entrusted to capable hands, and that the capitalization is proportionately distributed. A tion is proportionately distributed. I prospect pure and simple should be partially developed by a syndicate of development company before offering to the public, then there would, per the province and the best interests of

In connection with the Groundhos coal field, in which Mr. Hedley is largely interested, he said this morn-ing it was entirely a question of transportation. Railway facilities must be provided if the coal measure were to be worked, and the product gamsbling—which cannot be entirely disassociated from the industry, but which should be restrained within reasonable bounds. The untutored public, and many of those who should know better, look on mining not as a reputable business undertaking, but as a gamble, and buy shares in a new undertaking simply with the hope that the price, not the value, will be boosted, and that the shares for which they pay ten cents to-day may realize twenty cents to-morrow.

Mr. Hedley drew attention to his worked, and the products of the properties reaching the outcome world. In this fine antiractic field there was a freat opportunity for, the there was a freat opportunity for, the large capitalist willing to develop and a persuate in the products of the properties reaching the outcome world. highly of your wonderful remedy. You may use my name in any way you wish in public.

H. LILYWHITE. Brigden, Ontario.

Samaria prescription is tasteless and odorless, and dissolves instantly in tea or coffee or can be mixed with food. It can be given with or without the patient's knowledge. It removes the craving for drink, builds up the system and restores the nerves. Drink becomes distasteful and even nauseous. Drink is a disease not a crime. One drink of whiskey always incites another. The inflamed nerves and stomach create a craving that must either be satisfied by more whiskey or removed by scientific treatment like Samaria Prescription. Samaria Prescription & Samaria Prescription with booklet giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and iventioning this paper. Prince Rupert Board of Moral and Social Reform Passes Resolutions

Prince Rupert, April 17.—The board of moral and social reform at its last meeting recommended the earlier closing of hotel bars by two hours, endorsed the mayor, police and license commissioners, and recommended the early furnishing of the library room at the

The following resolutions were passes The following resolutions were passed unanimously and later in the evening presented to the mayor and city council by a committee consisting of Rev. F. W. Kerr, T. J. Davidson, Rev. Mr. Rushbrook and W. R. Morrison:

"Resolved, that this meeting of the presed and social reform council of

aten: President, Bisnop Du vernet (re-elected); vice-president, J. P. Cade; secretary-freasurer, T. J. Davidson; executive committee, Dr. Kergin, Dr. McNeil, W. R. Morrison, A. J. Gal-land, Mr. Allison, A. Douglas, C. C. Purdy, L. W. Patmore, W. J. Ken-

It moved by Rev. Mr. Kerr, seconded by Rev. Mr. Sing, that this associa-tion maintain its standing till the ex-ecutive arrange for a reorganization under the name of the Civic Welfare League. The motion carried unanim-

ously.

Bishop Du Vernet opened the discussion emphasizing the desirability of licensed premises closing early in accordance with the provisions being embodied in a by-law providing for the early closing of other business premises.

ealing with early closing, Mr. Kerr aid in permitting hotels to remain long after other busin

#### IRRIGATING FARMS.

Grand Forks, April 17.—J. T. Lawrence and R. W. Hughes have completed installing an electric pumping
irrigation system on their ranches.
The plant is of sufficient capacity to
irrigate fifty acres. Last summer the
first start was made to irrigate the
land of the valley by electric power,
and it has proven to be both efficient
and economical. The power is furnished by the South Kootenay Power
& Light Company's plant at Cascade.

water wheel.

The customs receipts for the month of March at the chief port in this city and the sub-ports of Phoenix, Carson and Cascade amounted to \$2,008.39.

Stewart. B. C., April 17.—By the oreaking of harness and the snapping of a
doubletree, a disaster was happily averted
iete on Friday night when the steamer
Camosun lay berthed at the government
wharf. A light three-seated stage, driven
by Pete Lowe, one of the most careful
teamsters in the town, and crowded with
a dozen people, had reached a point neariv opposite the Westholme Lumber Company's freight shed, when, to pass an incoming ris, the driver guided his team
close to the left of the wharf. In the
semi-darkness it was not noticed that the
lixil inch guard rall was out of alignment
and the front wheel struck the projection.

semi-darkness it was not noticed that the lix12 inch guard rall was out of alignment and the front wheel struck the projection. There was a sharp shock, followed by the rearing of the team and the snapping of harness and woodwork.

An instant later the frightened animals plunged over the side into the icy waters of the harbor. The rig swayed on the edge of the guard rall and then safely righted. The team quickly swam ashore and no one was injured.

A Mussachusetts woman has patented a wire gauge cover for bird cages to pro-ses.

The Clean White Light

No, you don't need to keep on cleaning and filling coal-oil lamps every day of your life. You can get rid of that most disagreeable job, and at the same time have a better lighted home, at less cost, by using Acetylene.

Acetylene is generated as you want it from a granulated stone called Calcium Carbide—in an automatic machine—and supplied through pipes to burners in every room. The generator is absolutely safe, is not expensive and is easily installed in any building. Generators are made in capacities to light from a small dwelling to a good-sized town.

Acetylene gives a soft, white light that is nearer sunlight than any other artificial light known. The colors in pictures, carpets and wall paper look just the same by Acetylene as by daylight. It is the perfect light for reading, as it does not strain or tire the eyes. Would you like to know more about Acetylene lighting? Write us—we'll gladly tell you. 12W

Halting Tendency in New York Market-Steel Corporation Earnings for Quarter

New York, April 17.—There is a hatting endency in the stock market at the pre-ent time, operations appearing evenly ivided, and subsequently movement either yay limited. From a sentimental stand divided, and subsequently movement einer way limited. From a sentimental standpoint, the Titanic disaster has served to exert a restraining influence for a while. Serious consideration is being given to the outlook in the winter wheat belt, but at the same time it is now more generally recognized that any early damage which must result will be reflected by planting of other cereals with a fair prospect of a good out-turn owing to the satisfactory condition of soil as the result of heavy moisture. It remains to be seen how the labor difficulties will be adjusted, especially those of engineers, which has the influence of fostering a feeling of hestiancy. It is heard from a good source that the Steel Corporation will show earnings of between \$21,000,000 and \$22,000,000 for the quarter ending March ilst. This would be better than expected.

RAILWAY OFFICIALS BEFORE COMMISSION

sumed at Toronto on April 29

Ottawa, April 17 .- A little over an way commission was taken up with consideration of the complaint that the rates west of Port Arthurs are too high, after which the general freight inquiry pertaining to the western half of the Dominion was adjourned till April 29, when it will be resumed in Toronto.

The most important development of

resumed in Teronto.

The most important development of the sitting was due to M. K. Cowan K. C., who has been named to represent the governments of Alberta and Saskatchewan in connection with the inquiry. While the counsel for the Dominion government, Harry Whitla, of Winnipeg, and James Bicknell, K. C. of Toronto, said it was desirable to wait until the rallways had furnished all information asked for, Mr. Cowan said there were witnesses present he desired to examine. They were General Traffic Manager McInnes, of the Canadian Pacific; George Shaw, general traffic manager of the Canadian Northern and Eastern lines, and Mr. Arundel, general superintendent for the Ontarlo division of the C. P. R. After getting the representatives of the rallways to assert that for similar traffic in like quantities, the service gives by railways in the East and West were practically the same, Mr. Cowan proceeded to quote statistics with the object of showing that the freight rates in the West are from 20 to 160 per cent. ## THE CHICAGO PIT

Crop Damage Reports From Central States-Offerings Not Large

Chicago, April 17.-There was a go tone, offerings not being large. Cro damage reports continued to come from central states, but foreign markets were

central states, but foreign markets were all lower. Local Checago professionals were sellers, which gave a sagging tendency in quotations. The close was about the same as fast night.

The tope in the coarse grain trade has undergone a change, beginning with the end of last week, when top quotations were made, and the market has been in need of special support from bull leaders. To-day's movement was better, particularly in the latter trading, and the close was a cent higher than that of yesterday. Country houses and shorts were buying September oats, and the market railled well. On the bulges quite moderate selling is in evidence.

	is in evidence.		603 U		5000

## NOT YET KNOWN

FATE OF C. M. HAYS

out from here yesterday that C. M. Hays, president of the Grand Trunk substantiated, was endorsed by the three evening papers yesterday. Pierre C. M. Hays and a passenger on the Titanic, told one paper he had received a cable saying the Hays party was safe. Another paper received information that Mr. Hays was safe from Grand Trunk officials here. Judge Davidson, father of T. Davidson, said he had received a private message from Vice-president Franklin of the White Star Line that all the Montreal people were safe.

the Titanic. Their names do not ap-pear among the list of those rescued. Icefield 70 Miles Long.

New York, April 17.—What is said t land was skirted by the ship LaBretagne, of the French line, which arrived here from Havre to-day bringing over 757 passengers. The field was seventy miles long and probably as wide, and the LaBretagne was five hours in passing along its edge. Scattered among the small ice were between forty and fifty immense bergs. The LaBretagne sighted this field at 6 o'clock last Sunday in the immediate place where the Titanic was sunk.

tee appointed to outline a scheme would make Bishopsch which would make Bishopsclose a rev-enue producing property. This the re-port stated, was impossible at the pres-ent time. Apartment houses could not be erected very well on church pro-perty, and the system of ground rents was not well enough understood in this Year's Progress Outlined in Reports Presented Last

Evening

Frogress Outlined in Least, for two years. As to the built on the property, but not, at least, for two years. As to the builting of the new cathedral, he thought that an appeal for funds for this would be met with an appeal for funds for this would be met with as soon as the people re-alized the need. Reference was also made to the need for a new parochial room and Sunday school. The church work at St. Mary's church, Oak Bay. work at St. Mary's church, Oak Bay, was progressing in a most satisfactory manner, thanks to the efforts of Rev. William Barton. At Ross and Shoal Bays, however, most depressing condi tions were to be found, but it was a source of some comfort to learn tha

source of some comfort to lear the Methodists had gone there. The dean called attention to the nee for more church workers, and much praise was accorded the able assist-ance rendered during the past year by Arthur Crease, his warden, and Alexi-Martin, the people's warden. Election for wardens resulted in the according

port to a special vestry how the con-struction of the new cathedral can bes-be undertaken and carried out," the dean announcing that a special meet-ling of the committee would be called as soon as possible.

The nominations for auditor resulted in Mr. Albert F. Griffiths being reap-

The following were appointed as

Messrs. John Harvey, A. J. Dallain, H. S. Crotty, Herbert Kent, E. B. Tay-lor, R. Yates, E. H. Hiscocks, E. C. B. Bagshawe, T. Elkington and Captain arvis.

The following gentlemen, all of who

cted as delegates to the Ruri-decanal onference last year, were re-elected; fessrs. H. S. Crotty, T. Elkington and J. Harvey.
The bulk of the synod representatives

were also re-elected, the full delegation being: Messrs. Crotty, Harvey, Dal-lain, Elkington, Martin, with Mr. E. C.

The Laymen's Missionary movemen committee was elected as follows: Messrs. A. S. Staden, Yates, Marshall, Dickson, Colbourne, Yeoman, H. E. Beasley, F. C. Niven, Jarvis, H. God-son, J. D. Virtue and J. A. Downs.
